

BREDSJÖ, 19 km

Difficulty level: **Red**

Start and Finish: Church in Hjulsjö

Altitude:

A great trail with some more difficult parts.

Follow the road towards Hällefors, turn off towards Bredsjö and the old railway, and follow it for about 3.5 km.

Turn left onto a small path and then right out onto the road. At the crossing, turn right and immediately left onto a good-quality path.

After the path, you come out onto a road towards Bredsjö. Ride through the village, not forgetting to visit Bredsjö Blå cheese café. After your break, turn left towards the shooting range, and enjoy the good-quality path that follows. Then turn left out onto the gravel road and ride for about 1.5 km. After the gravel road you turn right into a path about 1 km long. Then you turn right onto the gravel road and after 150 m right again to a more difficult section of hills and tricky paths past an old mining area. Then you follow the railway again in towards Hjulsjö.
